Sports Award Rally

In high school and junior high, sports are always a major part of extra curricular activities and very much publicized. Games, players, wins and loses are announced in school notes and newspapers. Often times, elementary schools forget about sports because their seasons are not long or have such a variety to talk about. However, Harrison Hawks is the exception to the rule.

This year Harrison decided to have an award rally for the boys and girls basketball team, volleyball team, and cheerleaders. The purpose of this activity was

to let the students know that Harrison does not only recognize their academic talents, but their sport's talents, as well. Students need to be aware that their talents in all areas make them role models. This helps give them motivation and determination to continue in their successes. Students need to grow in whatever strength they possess and build on the other ones.

Parents were invited to attend and listen to the accomplishments of their children. The Harrison family is proud of their Hawks and their numerous talents.

Hawk Spotlight

Elizabeth Cavazos Parent Liaison

Mrs. Cavazos is a major part of the Harrison Elementary family. She is extremely dedicated to the students, parents, faculty and staff. Every month, Mrs. Cavazos prepares informative parent workshops and opens her doors to bring in the outside community. While working long hours, her tasks are many. However, she always carries a smile. Her endless support, generosity, and determination to insure the success of Harrison cannot go unmentioned. Thank you for your 14 years of service, Mrs. Cavazos!

Principal's Desktop

David Muniz Benjamin Harrison Principal

As principal of Harrison Elementary, I would like to take time to recognize the faculty, staff, and students. Their efforts have proved to be endless in the pursuit of success. Harrison is transforming into a school that promotes respect, hard work, and improvement. Harrison is a true example of a school that believes all students can achieve and meet state requirements. Congratulations to the Harrison family in their success in AYP!
